

A woman with long blonde hair and blue eyes, wearing a dark green suit, is seated on a blue tufted sofa. She is holding a red, textured, rectangular clutch bag. In front of her on the sofa is another red, textured bag, which appears to be a jewelry box or a smaller clutch. The background is a plain, light-colored wall.

PROTECTING LEGACY

Over 185 years old,
five generation family-owned brand,
crafting the spaces where legacies live.

LEFT: PHILIP WOLF IV

Our legacy...

1834

Philip Wolf I, a successful German silversmith, discovered that his silver pieces sold better when presented in beautiful boxes. As he began selling more boxes than silver, he refocused his craft thus marking the beginning of WOLF.

1962

Over time, his highly automated factory employed over 300 people and was recognised as the largest manufacturer of jewellery boxes and display materials for all of Great Britain and much of Europe.

1895

Then came his son Philip Wolf II, who convinced his father to move the business to Malmö, Sweden. As time passed, his sons, Ernst and Philip III, proudly continued the tradition of box making.

1988

With the economy and business flourishing in England, the time was right for the Wolf family to assume the biggest challenge they had ever undertaken: tackling the USA and Canadian markets. It was up to Simon Philip V, with guidance from his father Philip IV, to persevere and continue to expand and diversify the company.

1930

Philip Wolf III continued to expand the Swedish factory into its third generation of box making. Progress was slow but steady and then, in 1962, his first son, Philip Wolf IV, immigrated to England to open a new factory.

TODAY

The Wolf family legacy proudly continues, focusing on innovative designs, technological advancements, the pursuit of the perfect design and the protection of your legacies.

Your legacy...

As a five-generation family company, we understand that extraordinary objects are representations of extraordinary moments in life.

Since 1834, the WOLF mark has been a symbol of decades of innovation and the pursuit of the perfect design.

We believe for a legacy to endure it must be nourished and upheld.

Every day in beautiful WOLF cases around the world, centuries-old treasures live side-by-side with exquisite new designs.

We are dedicated to honouring people's stories and the legacies they entrust to us.

Protect your legacy with WOLF

Sustainability

Over the last several years, we have deepened our commitment to sustainability across the company.

We source sustainable packaging and use materials like 100% recycled leather.

Because it matters to us, but also because our commitment to quality is intertwined with the need for sustainable processes and materials.

Protecting your legacy, protecting the planet.

Honouring Craft at Every Level

WOLF
Labour

Our workshops and the people who work in them are the bedrock of our business. We provide safe working conditions, liveable wages and work hard to ensure equal labour rights. Because the quality of life of our artisans directly affects the quality of our products and because we care about our impact on the environment, we also ensure that our factories meet emissions standards and practices.

Impact is in the Details

WOLF
Packaging

We only use recyclable, sustainable and eco-friendly packaging that is made of 70% post-consumer recycled waste. So you can feel good about unboxing your WOLF product as all packaging can be re-used or placed in a recycling bin.

Leather, Reimagined

WOLF
Recycles

Our CEO Simon Wolf has continued his family legacy in many ways, including a deep commitment to environmentalism and protection of animals. To protect your legacy, which is WOLF's core aim, we must do our part to protect the health of the planet. All of our watch winders are wrapped in 100% vegan leather; because the highest quality and luxury can also be sustainable.

New and Innovative Packaging

WOLF
Materials

At WOLF, we only use certified FSC 100% recycled paper, certified recycled corrugated cardboard and 100% recycled cotton and polyester materials. Our new accessories collection is 95% sustainable, with materials made from recycled PVC, apple pulp and plastic bottles.

Minimising Effects on Planet Earth

WOLF
Change

WOLF has a long history of caring about climate. Philip Wolf III wrote about 'climate change', in his book, 'Land Drainage and its Dangers as Experienced in Sweden', 58 years before the term had been coined. Philip wrote on subjects related to how we were already affecting the climate of the earth.

Family Legacy of Conservation

WOLF
Conservation

Simon Wolf's grandfather created the Swedish Salmon and Trout Association. The inauguration took place in August of 1948 when he opened Håstad Mill. As a lifelong fisherman who cared deeply about the water quality and the impact the fishing industry had on the planet, it was one of his greatest achievements that continues to inspire Simon Wolf's commitment to conservation.

PATENTED TECHNOLOGY AND DESIGN

**OUR WALLETS AND CARDHOLDERS
ARE RFID PROTECTED**

RFID or Radio Frequency Identification are the information tags transmitted by bank cards and wireless payment cards.

We use an RFID blocking material sewn into the lining of all our wallets and laptop cases that cloaks the signal, rendering it unreadable by scanners used by identity thieves.

PATENTED TECHNOLOGY

**OUR JEWELLERY BOXES
FEATURE LUSTERLOC™**

Jewellery begins to lose its luster with
air contact and our patented LusterLoc™

formula neutralises the process.

LusterLoc™ protects your jewellery

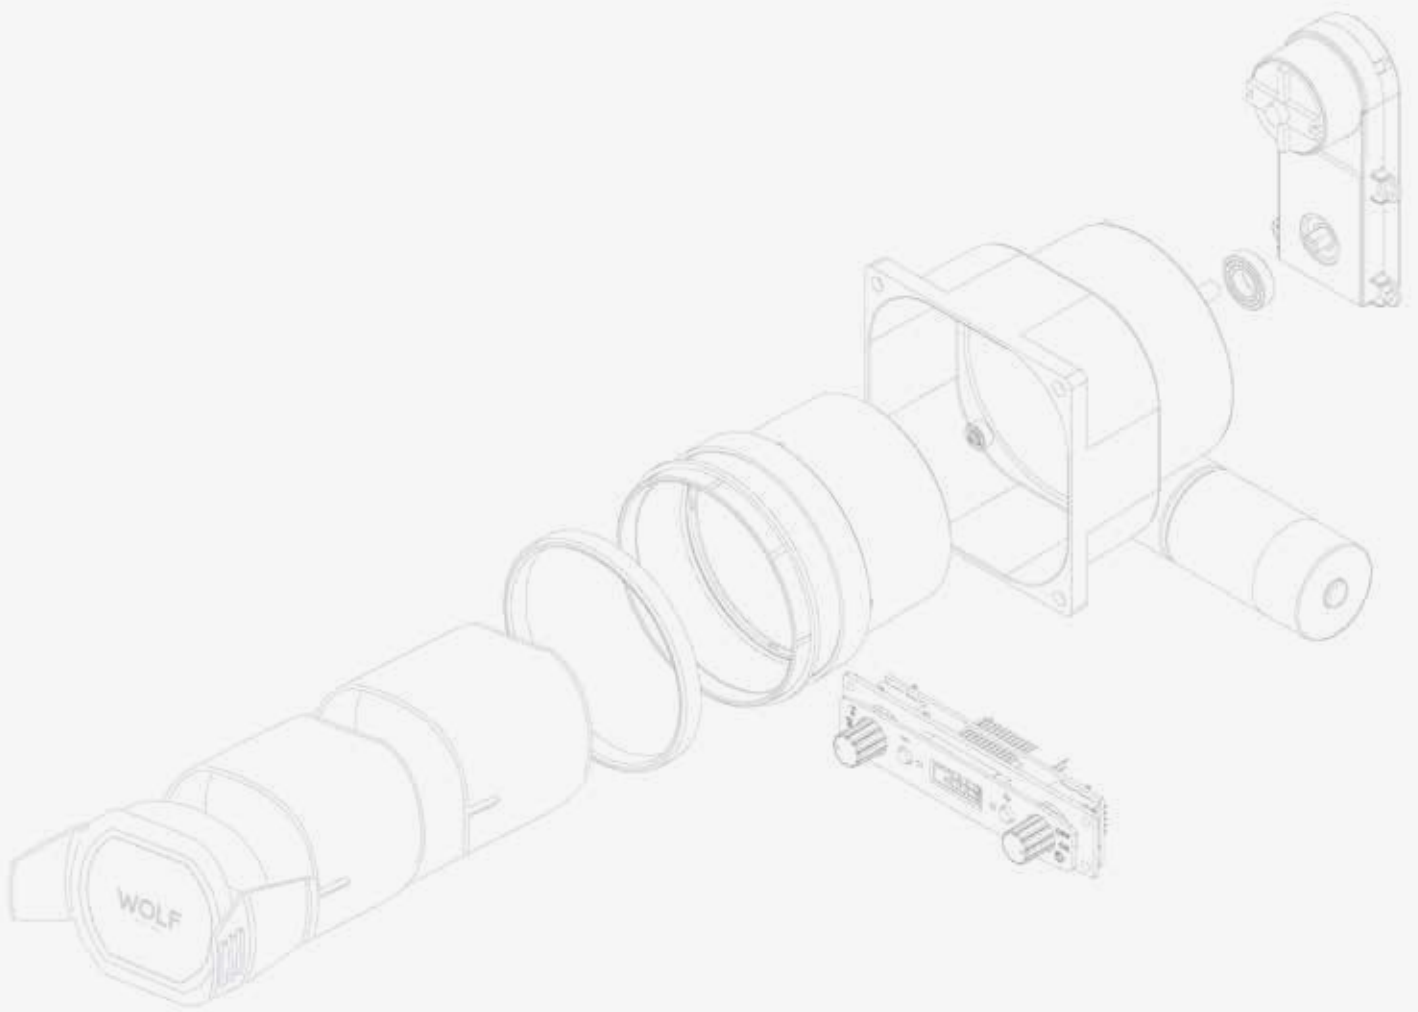

for up to 35 years.

PATENTED TECHNOLOGY AND DESIGN

ONLY OUR WATCH WINDERS COUNT TURNS PER DAY

WOLF, first to count Turns Per Day, first with the unique Return To Start feature, first to engineer a safe Lock-in Cuff, now first with their patent pending “Dynamic Cuff”. One cuff, three sizes...genius.

Why guess when you can be precise,
WOLF, always innovating.

WATCH WINDERS

A WOLF watch winder is a handmade precision instrument that focuses on the health of your watch using patented technology. Only a WOLF counts Turns Per Day, all other winders simply use time to estimate rotations. With a Lock-in Dynamic Cuff, allowing for varying wrist sizes and unique Return To Start feature, WOLF's winders combine clever design with innovative technology. If you value your watch, then wind it in a WOLF.

THE ROCKET

TRAVEL WATCH WINDER

The Rocket: The world's smallest travel watch winder; small enough to cradle in the palm of your hand, operate seamlessly inside any hotel safe, pop into your overnight holdall or pack for an extended holiday away. Put simply The Rocket gives your watch the perfect wind anytime, anywhere.

SAFES

The 1834 Safe Collection is the next level of WOLF's commitment to protecting your most precious valuables. Our meticulously crafted safes are made to provide the ultimate in security while upholding WOLF's iconic design identity of melding beauty and functionality. In addition to our standard collection we offer a completely bespoke experience that allows you to choose leather, hardware colour, and interior configurations, ensuring that your taste is matched perfectly.

ATLAS

Designed with beauty and function in mind the Atlas is forged in American steel, UL tested and certified for burglary & fire. Available in two stunning high gloss finishes of onyx or titanium and lined with LusterLoc™ to stop jewellery from tarnishing for up to 35 years. Choose from 4 to 20 winder modules (in groups of 4) to ensure that your collection keeps perfect time. Atlas is the solution for the protection of your most precious valuables.

FEATURES

- Store watches, jewellery, documents, etc.
- UL certified independent testing
- Bluetooth user-controlled app
- Rotation Options: 1-1,999 turns per day
- Directional Settings: clockwise, counter clockwise, or bi-directional
- Start Delay: Up to 255-hour delay
- Patented lock-in cuff design
- Custom 1834 grey LusterLoc™ treated ultrasuede interior

UL CERTIFIED INDEPENDENT TESTING

Verified Fire Resistance:

- For up to 120 minutes, tested at 927°C, then dropped from 30 feet.
- The interior temperature during the fire test remains below 177°C, (paper burns at 232°C, so your documents remain safe.

Verified Water Resistance:

- The interior of the safe door is sealed with Palusol® fire seal which expands 8 times the original size, sealing the door.

BLUETOOTH USER-CONTROLLED APP

- Effortlessly control winder modules either independently or simultaneously with WOLF app (download on the App Store or get it on Google Play).
- Customise your safe with the ability to name the safe and each winder.
- Upload your watches or personal photos as background image.
- i-Mode feature controls LED light with the ability to set on/off timers based on your schedule.
- Password-protected app control.
- Register your warranty from your phone.
- Contact customer service and shop online.

CHURCHILL

There is no limit to what we can craft for you. We begin with the size and configuration of the interior of the safe. You choose how many WOLF Bluetooth app controlled watch winders and the number of drawers for watches, jewellery or other valuables. We will then assist you in selecting the exterior for your safe, either sumptuous leathers or beautifully polished hardwoods. For more information and to start your Churchill design project visit www.wolf1834.com/churchill-safes

SMALL LEATHER GOODS

WOLF's range of luxury accessories for men and women includes wallets and billfolds, travel accessories, tech cases and bags. All designed innovatively to provide protection for your precious items with RFID in wallets and clever detailing for your travels. Classic beautiful design made from the finest leather alongside innovative sustainable materials made from apple pulp and recycled plastic bottles, luxury with a conscience.

MIMI

Mimi is for the woman on the go who needs her essentials close but wants to be free of bulky handbags. Inspired by both high runway fashion moments of the 90's and ancient Japanese Sagemonos, Mimi helps you travel light so you can go about your day in style.

SIGNATURE

The Signature Collection is designed for the world traveller who cares about the planet that they travel around. The collection is vegan, 95% sustainable and is made from recycled materials including apple pulp and plastic bottles. Inspired by vintage luggage, the collection is made with a fully recycled plastic exterior. The collection features wallets, card cases, travel accessories and laptop cases, all finished with a monogram pattern, gold hardware and has a RFID protection lining to ensure personal data is protected.

COLLABORATIONS

As the saying goes “a perfect match, made in heaven” and so it is with the utmost of consideration that we choose the company we keep. Our collaborations are rare and highly selective, Bea Bongiasca, Analog/Shift and WM Brown grace the following pages with innovative design twists that give a perfect nod to both brands.

ANALOG/SHIFT

Analog/Shift, leading retailer of vintage and contemporary timepieces based in New York City, have teamed up with WOLF, experts in watch care for over 185 years, to bring you beautiful modern interpretations of famous historical boxes with this limited edition collection.

WM BROWN

Known for his impeccable taste in fashion and love of watches Matt Hranek founder and editor of WM Brown has partnered with WOLF to craft a collection of products made for the modern man. The collection features WOLF's signature watch winders, watch boxes, and watch rolls or why not indulge in the ultimate gentlemen's accessory, the WM Brown Drinks Safe, all infused with WM Brown's iconic Negrone Tweed. Negrone Tweed was created in an English wool mill by the Fox Brothers for Matt & WM Brown in celebration of the delicious Negroni cocktail.
